

0342.50.15**Additional Requirements**

REV: ~~06/1998~~09/2006

When earned income contributes to the loss of eligibility for the Family Independence Program or for Section 1931 MA, InRhodes generates a notice informing the family of the right to continue to receive categorically needy medical coverage under extended Medical Assistance for up to the maximum of ~~18~~12 months allowable under the program, and of the requirements to:

- o submit ~~two (2)~~a reports which includes an accounting of the family's earned income and the "necessary child care" expenses;
- o enroll in an employer's health plan (whether individual or family coverage) if it is offered at no cost to the caretaker relative; and,
- o report circumstances which could result in the discontinuance of extended benefits, e.g., no age appropriate child in the family or a move out of state.
